## Intro

Teatro alla Scala is a landmark in the international artistic scene: its programming, ranging from classical repertoire to new and more experimental productions, makes it an example of excellence and a **living laboratory** where tradition and innovation meet.

The role of this Institution extends beyond the cultural sphere to embrace social and economic areas: the theatre is committed to projects aimed at opening up and reaching out to younger audiences and to initiatives promoting inclusion, seeking to attract an ever-wider and more diverse audience.

Its **international prestige** also helps to strengthen Italy's image as a country of art and culture, acting as an ambassador for a unique cultural heritage.

# TAX BENEFIT

## DONATIONS FOR NON-RESIDENTS IN ITALY

For memberships and donations from abroad, Milano per la Scala is accredited to **Transnational Giving Europe (TGE)** network. Established to facilitate donations between different European countries, it allows donors to support foreign organisations while benefiting from tax advantages in their country of residence.

### **How does it work?**

Foreign donors who wish to donate should refer to Milano per la Scala, which will assist them in contacting the partner in their country to agree on the donation procedures (each partner has its own internal procedures).

Example: British donor wishing to support an Italian organisation

- The donor transfers the contribution to the UK partner foundation.
- The British partner issues a tax receipt valid under British law: donors can thus enjoy the tax benefits provided by their country.
- The British partner transfers the donation to the Italian beneficiary organisation.

TGE withholds a variable commission from the donation, depending on its amount.

To ensure the full amount of the donation is received, it is possible to add the commission to the donation amount.

# 2026 SUPPORT

## Productions

Every year, the Foundation finances new opera and ballet productions, children's performances and symphonic concerts and/or recitals selected from the Season's programme.

Contributing with your financial support means ensuring the future of La Scala and its pursuit of artistic excellence.

## Ansaldo laboratories

Each season, around half of the opera and ballet productions are new works, for which the theatre crafts the sets, costumes and staging by hand.

Supporting the Laboratories means investing in the creative vitality of the theatre and supporting the training of new generations of highly specialised artisans, guardians of a knowledge that is rooted in the great Italian tradition and renewed through each passing generation.

## Accessibility

Since 2022, the Theatre has been actively committed to adopting and developing solutions that can accommodate audiences with hearing and visual disabilities.

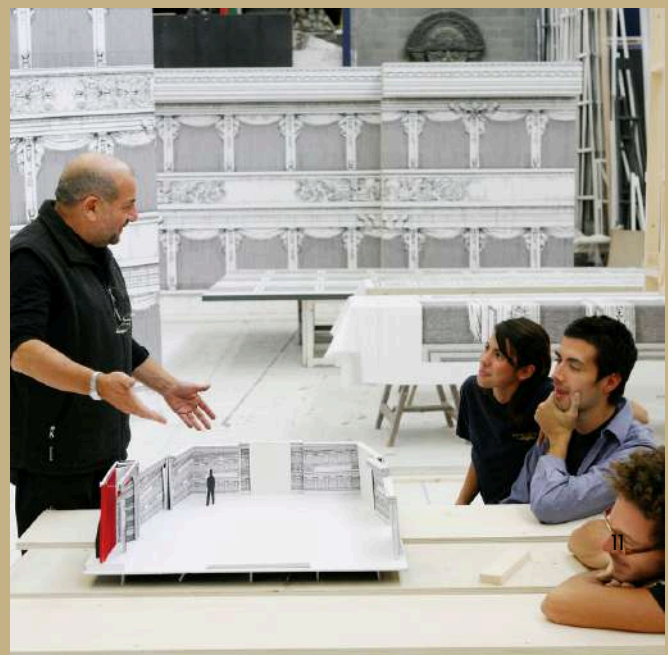

Financial support for this project ensures that the tools adopted are constantly updated and improved, so that the theatre experience is fully accessible to all, without barriers.

## DAM

(Digital Asset Management)

The digitalization process of La Scala's artistic heritage includes photographs, posters, costumes, accessories, sketches, figurines, and the sound archive.

Supporting this project means giving impulse to the digitalization activities of all the elements that are part of the historical heritage of the Theatre and guaranteeing their consultation, preservation, and sharing.
